In many tables you will find pairs of ruled lines with one or more stations intervening. Such rules indicate that stations thus set apart are located on lines branching out from the line covered by the table. If your destination is on the main line of the table, and not on one of these branching lines, let your eye jump both rules in tracing your schedule.	TO OBTAIN COMPLETE INFORMATION FROM THESE TIME TABLES, OBSERVE THE FOLLOWING GENERAL RULES:	ALL REFERENCE MARKS IN TIME TABLES SHOULD BE NOTED VERY CAREFULLY. Freight and Passenger Agent.	WINSTON-SALEM, N. C.....	616 Reynolds Bldg. L. C. LAMB, General Agent.

TO OBTAIN COMPLETE INFORMATION FROM THESE TIME TABLES, OBSERVE THE FOLLOWING GENERAL RULES:

Time from 12.01 midnight to 12.00 noon (A. M. time) is shown in light figures; time from 12.01 noon to 12.00 midnight (P. M. time) is shown in dark figures.

In time tables where stations are in middle column, and time on both sides, read the figures DOWN ON THE LEFT and UP ON THE RIGHT.

The time shown opposite a station name is the time trains are scheduled to be at such station. Where neither "Ar" nor "Lv" appears opposite a station name, the time of PASSENGER trains opposite such a station will be considered both the arriving and the leaving time.

Where no time is shown, trains do not stop.

The STATION INDEX on pages 4 and 5 is alphabetically arranged. The NUMBERS SHOWN IN STATION INDEX INDICATE TABLES.

On the double-page map reproduced in this folder, numbers are shown at various points along the line. These numbers refer to tables where time of trains is given.

In many tables you will find pairs of ruled lines with one or more stations intervening. Such rules indicate that stations thus set apart are located on lines branching out from the line covered by the table. If your destination is on the main line of the table, and not on one of these branching lines, let your eye jump both rules in tracing your schedule.

look first at the map. Then find your starting point and your destination in the index and turn to the table whose reference number appears opposite both stations.

If a change en route is necessary, locate your junction point on the map; then turn to the table in which your starting point is shown and trace your schedule to that junction point. Opposite that junction point will be a number referring you to the table in which schedules to your destination will be given.

If more than one change is necessary, use table map reference numbers and STATION INDEX similarly to locate schedules between junction points.

CONDENSED SCHEDULES—TABLES A to M, inclusive, are of assistance in planning local as well as extended trips. EQUIPMENT of through trains is shown on pages 6 and 7.

If further information is desired, any Rock Island agent or representative will be glad to assist you.

Certainly You'll Need It! So Why Not

Ship Your Car and Travel in Comfort by Train

The cost is surprisingly low. For passengers holding two or more tickets good in standard sleeping or parlor cars, or three or more tickets good in coaches, chair cars or tourist sleeping cars, the cost of shipping one's own car is little more than that of a one way first class ticket. (Minimum charge for both passengers and car is \$54.00.)

Special Service—Arizona—California—Colorado—anywhere. Quick delivery. No crating is necessary. Ask nearest representative for complete details.

WHERE TO GO THIS SUMMER

The Rock Island Lines summer vacation program suggests many delightful and economically priced all-expense outings to Colorado, Yellowstone, colorful Southwest, California, Pacific Northwest and Canadian Rockies.

Our offerings include independent tours on which you can leave any day during the season in air-conditioned cars with everything arranged and paid for in advance of departure—completely free from travel worries. As low as \$51.75 from Chicago for a nine day tour to Colorado. To Yellowstone, nine days \$114.38.

The escorted tours are scheduled to leave on selected dates during June, July and August with a competent director in charge of each party.

Just think, for as little as \$144.50 from Chicago, a full two weeks' tour to California in air-conditioned sleeping car for the round-trip. Five nights at hotels—rooms with bath; all meals; sightseeing tours and special entertainment. No extras, only personal tips. Visit El Paso-Juarez, Los Angeles, Hollywood, Santa Barbara, Santa Cruz Big Trees, San Francisco, Reno, Salt Lake City, Royal Gorge and Colorado Springs. Optional return via Canadian Rockies \$20.50 higher.

Another delightful 14 day outing to California returning via Victoria, Vancouver and Jasper National Park \$157.50.

TRAVEL BY TRAIN . . .

For Economy

Every day is now excursion day on the Rock Island—and every train is a low fare train. ROUND TRIP TICKETS—Only 1½ cents per mile in coaches—30-day limit. Only 2 cents per mile in sleepers—30-day limit. Only 2½ cents per mile in sleepers—6 months limit. Other special tourist fares surprisingly low—including all travel expense, if desired.

ONE WAY TICKETS—2 cents per mile in coaches. 3 cents per mile in sleepers.

Changing Class of Tickets

Passengers holding coach tickets (not special coach) who desire to use sleeping car or parlor car may have their rail tickets made valid for passage in sleeping cars or parlor cars on payment of difference between the one way first class rail fare and the one way coach fare applying between the points between which sleeping or parlor car service is available. Approximately the same charge will be made on intermediate class tickets when standard sleeping cars or parlor cars are used. In addition, passengers will be charged the sleeping car or parlor car rate for the space occupied. Tickets designated "special coach" will not be honored in sleeping cars or parlor cars under any circumstances.

An Appeal for Fair Play

The railroads object to governmental operation of barge lines on the waterways; because the government, when operating barge lines, does things which it has prohibited and made illegal, if done by a railroad. It is unfair competition for the government to regulate and restrict the railroads and at the same time conduct unrestricted competition with the railroads through the Inland Waterways Corporation.—From Railroad Data.
